

Video 9 – Thinning the Dash Harness

Use wire cutters to remove zip ties.

Use sharp knife to unwrap and peel the tape.

Completely unwrap the harness

Lay out the harness.

1:18 Remove antenna wire

1:27 Remove blower motor wires

1:44 Remove radio wires

3:19 Remove climate control wires

4:02 Remove airbag warning lamp wires

4:46 Remove dimmer knob wires

5:17 Remove trunk release wires

5:44 Remove wiper control wires

6:40 Remove air bag harness

6:55 Tie up the dash harness using zip ties

Video 10 – Thinning the main wire harness

1:14 Tie fuel system wires

1:40 Remove airbag wires with yellow connectors

3:25 Remove seat wires

4:36 Remove door wires

6:38 Remove large yellow airbag connector

8:19 Remove antenna cable

8:35 Remove passenger side wires

10:06 Remove speaker wires

10:52 Remove EVAP system wires tie pump wires together

12:16 Remove OnStar wires

12:43 Remove headliner wires

13:33 Remove trunk light wires

13:55 Cut trunk release connector

14:53 Remove and save defroster wire

15:20 Remove more OnStar wires

16:24 Remove wiper motor wires

Video 11- Reorganizing Part 1

0:00 Tape the first few inches of wires from multiplugs and reassemble them

1:27 Secure fuse to saw horse and reassemble modules and multiplugs

2:27 Reroute brake wires

2:46 Reroute fuel pump wires

3:16 Reroute tail light and side marker wires, Roll wires together

5:26 Reroute BCM power wires

6:01 Roll up ground wires

6:42 Install BCM plugs

Video 12 - Reorganizing part 2

0:00 Reroute ground wires, extend wires

1:47 Reroute EPS wires

4:19 Extend parking brake wire

5:03 Shape the harness

7:20 Connecting fuel pump plug

Video 13 - Reorganizing part 3

0:00 Prepare the headlight harness

1:50 connect temp sensor wires

2:20 Install headlight harness

2:42 Extend headlight harness ground and wires

5:27 Extend horn wires

6:14 Extend shifter wires on automatic car

6:55 Tape the fuse box wires

Video 14 - Combining dash and body harness

0:00 Connect Dash harness to BCM

1:06 Remove the main plug

3:08 Routing the wires

5:31 Extend throttle pedal wires

6:22 Shape the dash harness using components

11:24 rewire the button controls

13:44 Extend remaining wires

14:55 Tape the harness
